DISCOVER UC SAN DIEGO!

I invite you to discover the exceptional opportunities for a superior educational experience... opportunities that are waiting for you at one of the nation's premier universities.

Explore our interdisciplinary programs. We stretch and redefine traditional boundaries, helping you adapt to challenges that don't yet exist, using technology not yet dreamed.

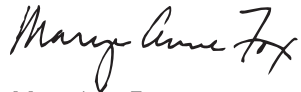

Take a look at our unique arrangement of six undergraduate colleges. Rather than being organized around a field of study, your college focuses on a distinct philosophy with core courses, creating a smaller social neighborhood of its own, while remaining an integral component of the campus.

Discover our beautiful campus, perfectly situated overlooking the Pacific Ocean. It's just one of the reasons UC San Diego is one of the most popular choices in the renowned University of California system.

Now picture yourself as part of the intersection of people from every academic discipline and from all over the world. Our diverse community is the foundation for impacting the sciences, the arts, philosophy, and technology; it's the strength for working towards social justice, close to home and around the globe.

During the 2010-2011 year, we'll be celebrating our 50th anniversary with the whole world—and you'll be amazed at what we have accomplished. I urge you to explore all the possibilities that make up UC San Diego's history—and our future.

Welcome!

Marye Anne Fox
Chancellor

ACADEMIC STRENGTH

UC San Diego's academic excellence is built on the solid foundation of our faculty. Internationally renowned, they make groundbreaking research discoveries, receive the highest honors from their peers, and become your inspiring teachers.

At UC San Diego, you'll find yourself in a challenging learning environment with students from cities large and small, from countries near and far. You'll discover opportunities for learning, research, and leadership.

Many of our academic departments have an interdisciplinary approach that adapts learning to the world beyond the university. By taking combinations of classes in history, mathematics, visual arts, communication, psychology, music, physics, or literature, you'll look at solutions from a multifaceted perspective and make your own opportunities.

You can also choose an interdisciplinary minor as a counterpoint to your major. A minor can be six or seven related courses that encourage you to explore fields ranging from Law & Society to Chicano/a and Latino/a Arts and Humanities to Environmental Studies... to name a few.

Whether you're a transfer or freshman, you'll be able to play a leading role in creating the future you envision for yourself and your generation—and your world.

Seven Nobel Laureates currently call UC San Diego home for teaching and research (17 in UC San Diego's history). Our faculty is internationally recognized—you'll meet recipients of the Fields Medal, Enrico Fermi Award, Balzan Prize, National Humanities Medal, Pulitzer Prize, Tony Award, National Medal of Science, Kyoto Prize, Academy Award, and MacArthur Foundation "Genius" Awards.

"INNOVATION IS OUR TRADITION."

"One of our strengths is the dynamic nature of our academic offerings. We bring together scholars and resources in unique combinations, and redefine traditional departmental boundaries to create new perspectives. In the arts, we break new ground by integrating technology; while science and engineering benefit from taking a creative look at societal issues. You'll find this innovative approach in UC San Diego's classrooms."

Barbara Sawrey, Ph.D.
Associate Vice Chancellor for
Undergraduate Education

GRADUATE AND PROFESSIONAL SCHOOLS

- Jacobs School of Engineering – graduate and undergraduate
- Rady School of Management
- School of International Relations and Pacific Studies
- School of Medicine
- Scripps Institution of Oceanography
- Skaggs School of Pharmacy and Pharmaceutical Sciences

One of the major advantages for undergraduates at UC San Diego is the strength of our graduate schools and programs. Our innovative approaches to education make an impact on how you learn and on the world at large—which then attracts international attention, forward-thinking faculty, and high-caliber graduate students who may be your teaching assistants, your classmates, and your research colleagues.

7TH for excellence among public colleges and universities in the U.S.
— *U.S. News & World Report*

4TH best in the nation based on the positive impact the university has had on the country
— *Washington Monthly's College Guide*

Jinny

John Muir College

major: **Cognitive Science**

minor: **Interdisciplinary Computing and the Arts (ICAM)/Visual Arts**

"I really liked the campus here because I didn't want a school in the middle of a city, so this was my first choice. I was going to be an environmental engineer, but in one of my GE classes, I found out about cognitive science. I hadn't even known it existed and I just really connected with it. The professors are the top of the top, and it's awesome to be a part of what's going on in the department."

UNIQUE COLLEGE SYSTEM

What distinguishes UC San Diego from other universities is its family of undergraduate colleges. Patterned after the centuries-old Oxford/Cambridge system, our six colleges offer students individual choices in core academic programs, general education requirements, and social communities, while collectively retaining the impressive benefits offered by a highly ranked major university.

Each college has its own focused educational philosophy. Match up your interests and ideals with the colleges. At most universities, it's your choice of major that puts you in a particular college—not at UC San Diego. All majors, all academic support programs, and all university resources are available to every student, no matter which college you're affiliated with.

The colleges take the name of an influential person who embodies the ideals sought by that college's students and staff: Roger Revelle, John Muir, Thurgood Marshall, Earl Warren, and Eleanor Roosevelt were all leaders in the arts and sciences, in politics, and in society—and UC San Diego's first five colleges have been named after them. Our newest college focuses on the intersection of culture, art, and technology, and is currently known as Sixth College.

Since you can declare any major wherever you are, the choice of your college is another singular component of a great education at UC San Diego.

"The faculty is pretty influential for me—I mean, all the professors in my department I like and respect and want to work hard for. I think that the things we create on stage are much more genuine and more advanced because they have to be up to par with these professors who know exactly what kind of work you can do and what level you should be at. And they really want to change your life by testing the limits, sometimes pushing you outside your comfort zone. That's what I'm here for."

Carrie

John Muir College
majors: **Dance and Theatre**

WHEN APPLYING TO UC SAN DIEGO,

you'll be asked to choose an undergraduate college.

How do you choose? Read about the colleges and their general education (GE) requirements in the following outlines and on our webpages: colleges.ucsd.edu

Then rank choices based on your own interests and philosophies.

Transfer students should consider the college's GE requirements in relation to their completed courses.

"I didn't know anything about UC San Diego when I first got here: this place is ten times larger than my high school! But now it doesn't seem like that big a university, because it's home. The college system helps a lot. You have your space you're familiar with, you walk to class with the same people, you write papers together. But you can't expect to sit in your room and not go out and meet people. You have to shape your college experience—open the door yourself."

Rolland

Thurgood Marshall College
major: **Psychology**

"I transferred to UC San Diego as a junior. When I visited the campus before deciding, it always seemed like there was a lot to do here. I'm really involved in my college—council, peer educator, working with the transfer groups—and that helped with meeting people."

Martin

John Muir College
major: **Economics**

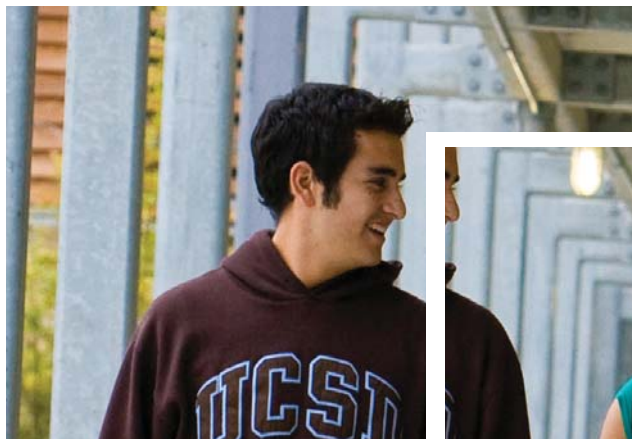

"The campus itself is huge, but the college system makes it accessible. It's easier to get to know people—you can always start a conversation by asking what their college is. You'd think it's clique-y, but it's the opposite. And I went to Paris for five weeks in the Global Seminars program, which really made me feel like a world citizen."

Paulina

Eleanor Roosevelt College
major: **Political Science**
minor: **Urban Studies & Planning**

Further information about
choosing a college can also be
found in the General Catalog:
catalog.ucsd.edu

SIXTH FRESHMAN GE REQUIREMENTS

QUARTER COURSES

3 **Culture, Art, and Technology**

includes 2 quarters of intensive instruction in university-level writing and digital literacy

1 **Information Technology Fluency**

12 **Breadth Requirement**

2 **Analytical and Scientific Methods** 2 *science courses*

2 **Art Making**

1 **Exploring Data** 1 *statistics course*

2 **Narrative, Aesthetic, and Historical Reasoning** 2 *humanities courses*

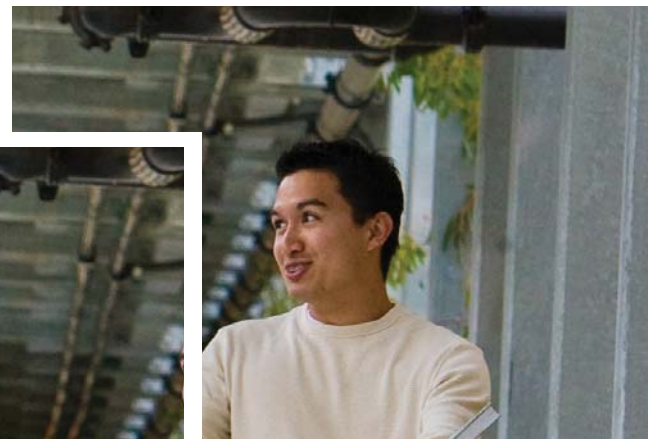

2 **Social Analysis** 2 *social science courses*

2 **Societal Context**

1 **Structured Reasoning** 1 *math/logic course*

2 **Practicum**

Minor *optional*

SIXTH TRANSFER GE REQUIREMENTS

(to be completed after transfer)

IGETC

- accepted as full completion of lower-division GE requirements if certified by your community college
- no additional lower-division courses required
- minimum of 60 upper-division units, including the practicum project/course and CAT 125, the practicum writing requirement

TAG

- Full completion of IGETC, as certified by your community college, is required.
- Minimum of 60 upper-division units, including the practicum project/course and CAT 125, the practicum writing requirement.

UCSD Articulation Breadth Agreement

- Minimum of 60 upper-division units, including the practicum project/course and CAT 125, the practicum writing requirement.
- Course-by-course articulation; some lower-division courses may be required after transfer.
- With careful planning, you can complete most lower-division general education courses.

preparing effective citizens for the 21st century

Sixth College, the newest of UC San Diego's six colleges, is dedicated to helping students acquire the interpersonal skills, technical know-how, self-knowledge, and cultural awareness needed to thrive and be effective in the global community.

SIXTH FEATURES

- Sixth College prepares students to become effective global citizens who engage creatively and ethically with the complex issues facing the world in the 21st century.
- The college draws its creative inspiration through the interdisciplinary examination of culture, art, and technology.
- The General Education program is flexible and is designed to help students develop critically important skills to become engaged global citizens.

CORE ACADEMIC PROGRAMS

The year-long Culture, Art, and Technology (CAT) core sequence with its embedded writing program:

- explores how people in various societies use culture, art, and technology to express their beings and to mediate their relationships with nature, each other, and their environments
- examines the functions and interactions of art and technology in different periods from a cross-cultural perspective
- teaches inquiry and discovery through writing, communicating, pursuing digital literacy, and composing in other media
- develops skills vital to working collaboratively, in teams, and across cultures

THE PRACTICUM

Sixth College's capstone upper-division project:

- challenges students to connect their academic education to surrounding communities

- promotes civic engagement and global consciousness

TRADITIONS AND COMMUNITY LIFE

- *Arts6* connects the campus-wide ArtPower! program to Sixth College's academic theme of culture, art, and technology, affording students opportunities to engage with diverse, world-renowned artists.
- *Kuncocshun*, Sixth College's celebration of student creativity organized annually by its students, is a festival featuring art exhibits, performances, art making, and foods from around the world.
- *Let It Flow... A Soulful Night at Sixth* is the College's traditional celebration during Black History Month. The program features professional and student spoken-word artists, hip-hop dance, and a tasty soul-food meal.

TRANSFER AND COMMUTER STUDENT OPPORTUNITIES

- Sixth College Transfer Buddy Program
- Commuters in Action student organization
- Commuter Center
- All Campus Transfer Association (ACTA)

The colleges each start out with a number – Second College, for example – and honor a person whose life and work represents the ideals of the college's philosophy and educational approach. Students, faculty, and administrative leaders are all involved in choosing a name. Sixth College enrolled its first students in 2002, and is still in the earliest stages of the naming process.

Yunuen

Sixth College

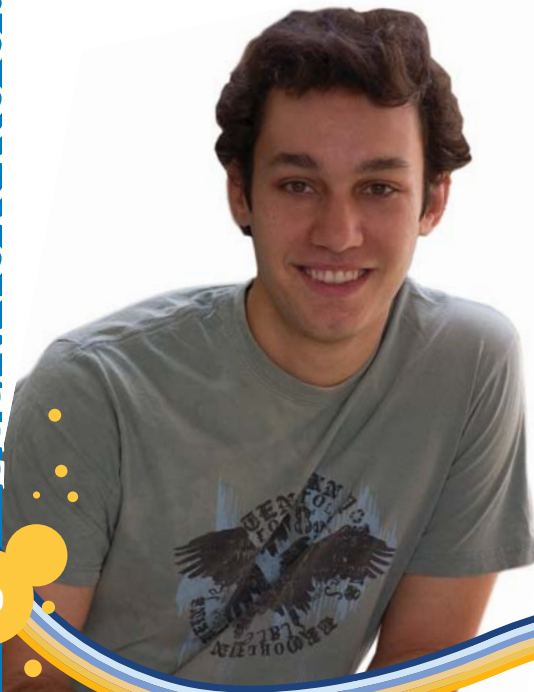

majors: **International Studies**
Political Science/History

"When I chose UC San Diego, I felt it was far enough away from home to be able to experience something new. My first-year housing was Camp Snoopy and I loved it! We created our own family, like living in a great big house. And it feels close to the center of campus and to Price Center. Some people say there's nothing to do, but only if you stay inside your dorm and do nothing. There's a million things to do here!"

Andrew

Eleanor Roosevelt College
majors: **Linguistics**
European History

"It's a long way from Queens, New York to San Diego—before I moved in my res hall, I'd never even been to California. So I chose my college by looking at pictures. It's new and modern and the quad is beautiful and you can lounge out there, have a picnic, play frisbee. And I was thinking that at a big university, there's a feeling you can't talk to the professors, but that's just not true. I'm interacting as a participant in the department, and in working on the upper-division projects, professors treat you like a colleague. That's made it all worthwhile."

Eleanor Roosevelt College honors one of the most noted American political leaders and humanitarians. ERC's comprehensive general education prepares you to compete successfully in this century's global and multicultural economy, with any major and profession.

ERC FEATURES

- cohesive general education program
- academic enrichment opportunities (international affairs discussion groups and intercultural communications workshop series)
- community service/leadership development
- experience abroad opportunities (optional)

CORE COURSE: "MAKING OF THE MODERN WORLD" is an interdisciplinary analysis of major Eastern and Western civilizations that shaped the modern world. The course sequence:

- expands comparative, analytic, and writing skills
- prepares you for any major, career, or graduate/professional school
- gives you opportunities for topic-related field trips

STUDENT LIFE

- intercultural communication opportunities with students from around the globe
- community service projects/activities internationally and in San Diego
- each quarter the flagship program, "Celebration of Cultures: At Home and Abroad," highlights a region of the world
- cutting-edge leadership programs preparing tomorrow's world leaders
- social activities/events such as Rock-N-Roosevelt and semi-formal dance

TRANSFER AND COMMUTER STUDENT OPPORTUNITIES

- quarterly campus-wide transfer socials
- annual Commuter Appreciation Week and regular Commuter Breakfasts
- workshops for successful transition to UC San Diego
- ERC's Commuter/Transfer Student Association

International House at ERC brings the whole world to the UC San Diego community through programs that share culture, language, and traditions. Language Tables, Global Gourmet, SLAM (Spontaneous Laughter, Art and Music), Model United Nations, Sunday Suppers – all organized by students. Everyone's invited to participate.

*developing world citizens
through scholarship, leadership & service*

ROOSEVELT FRESHMAN GE REQUIREMENTS

ROOSEVELT TRANSFER GE REQUIREMENTS

(to be completed after transfer)

QUARTER COURSES

6 **Making of the Modern World**
includes 2 quarters of intensive instruction in university-level writing

0-4 **Foreign Language** *can be met by proficiency or coursework*

2 **Fine Arts** *includes study of both Western and non-Western arts*

2 **Natural Sciences**
choices available for science majors and non-science majors

2 **Quantitative Methods / Formal Skills**
choices available for science majors and non-science majors

3 **Regional Specialization**

Minor *optional*

You may combine foreign language and regional specialization coursework to focus on a particular geographic area.

Transfer students who can certify that they have completed the lower-division general education requirements at an accredited four-year college, and students who have completed the **TAG** Program at a California community college prior to entering UC San Diego, must take three quarters of *Making of the Modern World*. The same requirement for **IGETC**-certified students is pending approval.

All other transfer students must complete three quarters of *Making of the Modern World* and satisfy the other general education requirements applied to students admitted as freshmen.

WARREN FRESHMAN GE REQUIREMENTS

QUARTER COURSES

2 **Writing**

2 **Ethics and Society**

2 **Formal Skills**

calculus, symbolic logic, computer programming, and/or statistics

Programs of Concentration (PofCs)

12 *for B.A./B.S. degrees (except engineering): 2 PofCs, each containing 6 courses and each noncontiguous to the major and to each other* **OR**

Area Studies

6 *for B.S. degrees in engineering: 2 area studies, one in the humanities/fine arts and one in the social sciences, each containing 3 courses* **OR**

Minor *may be used in lieu of a PofC or Area Study if noncontiguous to the major and to the other PofC or Area Study*

WARREN TRANSFER GE REQUIREMENTS

(to be completed after transfer)

IGETC

- accepted as full completion of lower-division GE requirements if certified by your community college
- 3 upper-division courses that are noncontiguous to the major

TAG

- Full completion of IGETC, as certified by your community college, is required.

UCSD Articulation Breadth Agreement

- Course-by-course articulation; some lower-division courses may be required after transfer.
- With careful planning, you can complete lower-division GE requirements prior to transfer.

The college's philosophy, "Toward a Life in Balance," honors the former Governor of California and U.S. Supreme Court Justice who believed that citizens must balance personal responsibility and public service. Warren College strives to encourage students to discover this symmetry throughout their years at UC San Diego and beyond, and has adopted the scales of justice as its logo to represent this balance.

Warren College is committed to providing students with a challenging and stimulating environment with significant exposure to the humanities and fine arts, social sciences, and math/natural sciences/engineering disciplines.

WARREN FEATURES

- a curriculum plan that ensures flexible choices to identify your abilities and interests
- an honors program for students with a broad range of interests and a history of outstanding scholastic achievement
- the Warren College Writing Center is designed to help you become a more confident and skilled writer
- an academic advising office to serve your educational needs by assisting you with your academic requirements and questions
- a student affairs office that provides co-curricular opportunities to complement the classroom experience
- opportunities to participate in academic internships in the U.S. and abroad
- optional interdisciplinary programs in Law and Society and Health Care–Social Issues

WARREN PREPARES YOU FOR:

- the intellectual rigors of graduate/professional school
- a life of personal and academic integrity
- diverse careers and professions

STUDENT LIFE

- academic, cultural, and social programs
- leadership opportunities
- multicultural enrichment programs and events
- student government and other student organizations
- college television station
- volunteer programs

WARREN COLLEGE WRITING PROGRAM

A two-course sequence that is designed to:

- develop your ability to write clear and coherent academic prose
- offer small, intensive writing seminars with a maximum of individual attention
- introduce the principle of argumentation and provide opportunities to develop your own arguments about current critical issues

TRANSFER AND COMMUTER STUDENT OPPORTUNITIES

- leadership opportunities and campus involvement
- social, educational, and recreational events provide opportunities to meet transfer students from all six colleges
- seminars help transfer students connect with each other and adjust to academic life

Afshawn

Earl Warren College
major: **Human Biology**

"There's a stereotype that people here aren't friendly—but it's not accurate. There are so many different types of people, and all so interesting! In my college, I probably know 80 percent of the people because the res halls are a little bit tucked away from everything else, so we all hang out together. And my first-year roommates were not all studying the same thing—they're majoring in communications, history, and visual arts."

Paola

Thurgood Marshall College
majors: **Art History/Criticism**
Ethnic Studies

"Some of the classes are big, but you can't think the professors aren't accessible. I had a really good experience, because I always went to office hours, especially for math, which I was apprehensive about. When I met with the professor, I came in with a list of problems and he helped me with each one. I feel like I've been able to talk to so many professors and it's just been an incredibly positive experience."

Former Supreme Court Justice Thurgood Marshall championed equal educational opportunities, freedom of speech, and human rights. Inspired by his rich legacy, Thurgood Marshall College emphasizes scholarship for all, diligent citizenship, and the belief that, regardless of major, one's role in society is an exciting, dynamic responsibility.

MARSHALL FEATURES

Opportunities to connect with the college, campus, and surrounding communities through:

- Commitment to your development as a scholar and citizen
- Stimulating student organizations
- Partners at Learning (PAL) – tutoring and mentoring in local schools

GENERAL EDUCATION

GE courses are engaging and flexible, preparing you for any major. Combine your learning and growth through:

- undergraduate research
- study abroad
- topical honors seminars
- exchange programs
- public service for credit
- exciting internships and independent studies
- specialized TMC minors in Public Service or African American Studies

CORE COURSE: "DIMENSIONS OF CULTURE" DIVERSITY, JUSTICE, IMAGINATION.

- challenges you to excite awareness of cultural and political perspectives
- prompts an interdisciplinary exploration of complex and pressing issues in contemporary American life
- ignites writing skills as you probe origins, legalities, and paradoxes of social stratification

STUDENT LIFE

Marshall prepares lifelong learners and engaged citizens through diverse social, cultural, and leadership programs:

- Thurgood Marshall Student Council
- Annual events such as Marshall Week and Cultural Celebration
- Marshall Television Station (TMTV), uniquely Marshall's!
- Leadership Enrichment and Advancement Program (LEAP)
- "Each One Reach One" Mentors, match new and ongoing students
- Marshall Spirit Crew, promote pride, unity, and school spirit

TRANSFER AND COMMUTER STUDENT OPPORTUNITIES

- Transfer and Re-Entry Student group (TRES) sponsors graduate/professional school panels, faculty-student programs, and social events
- Transfer Connect and Success Program helps you make the transition to UCSD
- Marshall Faculty Mentor Program for transfer students
- Commuter Board hosts "rest stops," socials, and Commuter Appreciation Week
- Commuter Lounge, Thurgood Marshall Activity Center, and Fireside Lounge

Our students' cultural richness and diversity take center stage in a day-long festival of international foods, live music, arts and crafts, children's activities, international bazaar, and dance performances from all around the world. Marshall College has hosted its Annual Cultural Celebration for campus visitors to enjoy for 30+ years.

MARSHALL FRESHMAN GE REQUIREMENTS

QUARTER COURSES

	Dimensions of Culture: Diversity, Justice, Imagination.
3	<i>core courses include 2 quarters of intensive instruction in university-level writing</i>
2	Humanities
1	Fine Art
3	Natural Sciences <i>one course each in Biology, Chemistry, and Physics; courses available for science majors and non-science majors</i>
2	Mathematics, Statistics or Logic <i>courses available for science majors and non-science majors</i>
4	Disciplinary Breadth <i>must be noncontiguous to major field of study; 2 courses must be upper-division</i>
	Minor <i>optional</i>

marshall.ucsd.edu

MARSHALL TRANSFER GE REQUIREMENTS

(to be completed after transfer)

IGETC

- accepted as full completion of lower-division GE requirements if certified by your community college

TAG

- Full completion of IGETC, as certified by your community college, is required.

UCSD Articulation Breadth Agreement

- Complete 2 six-unit lower-division courses from Dimensions of Culture sequence after transfer.
- Course-by-course articulation; some lower-division courses may be required after transfer.
- With careful planning, you can complete most lower-division general education courses.

To be completed after transfer

- Minimum of 60 upper-division units, including 2 four-unit upper-division courses noncontiguous to major.

MUIR FRESHMAN GE REQUIREMENTS

QUARTER COURSES

2	Writing
3	Social Sciences <i>a three-course sequence</i>
	Mathematics or Natural Science (including an interdisciplinary Environmental Studies option)
3	<i>a three-course sequence in either category – specific sequences available for non-science majors</i>
6	Humanities – Fine Arts – Foreign Language
	<i>a three-course sequence in either category</i>
	Minor <i>optional</i>

MUIR TRANSFER GE REQUIREMENTS

(to be completed after transfer)

IGETC

- accepted as full completion of lower-division GE requirements if certified by your community college
- minimum of 18 four-unit upper division courses, which may include upper-division major requirements
- 1 U.S. cultural diversity course which may be completed before or after transfer
- 1 writing course: Muir 125 or Muir 50

TAG

- Full completion of IGETC, as certified by your community college, is required.

UCSD Articulation Breadth Agreement

- two courses: Muir Writing 40 and 50 (lower-division)
- same as IGETC upper-division requirements
- 1 U.S. cultural diversity course, which may be completed before or after transfer
- Course-by-course articulation; some lower-division courses may be required.
- With careful planning, you can complete all GE requirements prior to transfer.

Individual choice, personal responsibility, and active participation in college, campus, and community life define the college's educational philosophy and general education requirements. Named after the renowned conservationist John Muir and guided by his remarkable life, Muir College is deeply committed to supporting its students as they explore diverse interests and develop into thoughtful, self-directed adults.

MUIR FEATURES

Promoting active participation in independent learning, the general education curriculum provides:

- a framework of four different areas of knowledge and two analytical writing courses to assure a broad-based liberal arts education
- year-long sequences in each area of knowledge to assure depth of learning
- high degree of individual choice
- substantive personal advising to support informed decision-making
- encouragement to participate in academic enrichment programs including study abroad and the Dartmouth College exchange

STUDENT LIFE

Muir College is known for its vibrant student-life environment. More than 30 organizations thrive, owing to our students' enthusiastic involvement in groups such as:

Muir College Council	Muir Volunteer Program
Muir Television	Muir Eventual Doctors
Muir Theatre Troupe	Muir Musical Ensemble
Weekends at Muir	Muir Environmental Corps

MUIR INTERDISCIPLINARY MAJOR AND MINORS

As part of its commitment to fostering interdisciplinary teaching and research, Muir College is home to the Critical Gender Studies major and minor, the Environmental Studies minor, and Film Studies minor.

THE MUIR WRITING PROGRAM offers a 2-course analytical writing sequence which prepares students for university-level writing across majors, with:

- emphasis on critical analysis
- individual conferences with instructors
- small-group workshops
- small classes (15 students)

TRANSFER AND COMMUTER STUDENT OPPORTUNITIES

Transfer Students are valued members of Muir College and receive a wide range of support through:

- Transfer Mentorship Program
- Transfer Connect and Success Program
- Tribe of Muir Transfers
- All-Campus Transfer Association (ACTA)
- Muir Commuter Council

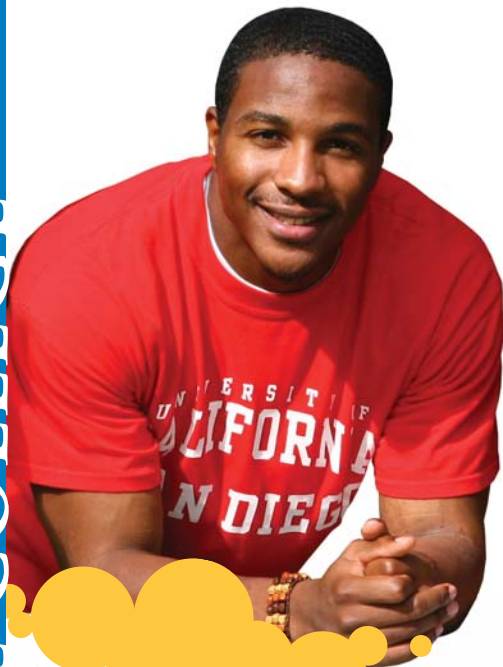

The College's iconic, modernist buildings – represented by the twin residence halls, Tenaya and Tioga – are the focus of a recent grant from the Getty Foundation to document the architectural history of Muir College. In keeping with Muir's theme of environmental sustainability, a plan is being developed to help with long-term management of the College's complex of architecturally distinctive buildings.

Bijan

John Muir College
major: **Bioengineering**

"When I didn't get into my first choice school, I visited UC San Diego and really liked the campus—I mostly liked that it wasn't urban because I thought that would be too distracting. The quality of the bioengineering program was a big factor too, and when I first got here, I bought into that reputation for being overly serious—assumed it was all science and engineering. Wrong! There's so much more going on here! I'm really enjoying my decision."

Henry

Revelle College
major: **Political Science**
minor: **Economics**

"I wanted a little bit of everything from my college, not just GE's in one subject. I wanted to be challenged. I like the variety, and I like the writing, as much as I like playing basketball for three years. Athletics demands a lot of energy and time, but I feel like while you're in college, you can't just study. You have to commit yourself to an activity that means something to you."

UC San Diego's first college honors Dr. Roger Revelle, founder of UC San Diego. A recipient of the President's Medal of Science, he was best known for his prediction of the Greenhouse Effect.

REVELLE FEATURES

The Revelle curriculum features a well-structured liberal arts education. Every student takes courses in the humanities, fine arts, social sciences, a foreign language, calculus, and science.

THE CURRICULUM DEVELOPS ESSENTIAL SKILLS, SUCH AS LEARNING...

- to write effectively
- to use the languages of science and mathematics
- about our culture and social structures
- how to acquire information and to ask discerning questions

OPPORTUNITIES INCLUDE:

- Emerging Leaders Program
- One-on-One Mentoring Program
- student organizations—more than 15
- popular events such as the Talent Show, Car Show on the Plaza, and UC San Diego's oldest tradition—the Watermelon Drop

CORE SEQUENCE

The Humanities program is a five-course interdisciplinary sequence on western history, literature, and philosophy. The program integrates writing instruction with the course material.

STUDENT LIFE

Revelle provides numerous opportunities to be active at UC San Diego through programs and events that develop leadership skills and life skills essential for success beyond college:

- Internships within the Revelle administration
- College Council and College Assembly
- Community Outreach and Cultural Awareness Network
- Ambassadors for Welcome Week and Admit Day
- Orientation Leaders and assistants, and Resident Advisors

TRANSFER AND COMMUTER STUDENT OPPORTUNITIES

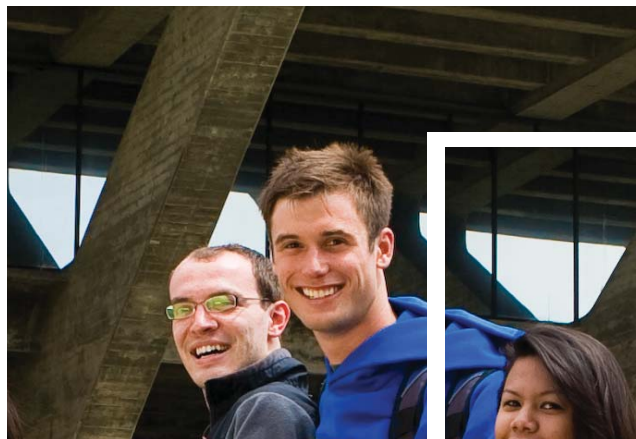

Special programs smooth the transition to UC San Diego:

- individual online advising by college and major advisors
- on-campus orientation
- Revelle Transfer Student Network
- Revelle Commuter Activities Board
- All-Campus Transfer Association

UC San Diego's first college was named after oceanographer Roger Revelle, who accomplished enough during his eighty-two years to distinguish several lifetimes. The '64" Revelle was often referred to as a "scientific giant," literally and figuratively. He received many honors, but always considered his greatest achievement to be the creation of UC San Diego.

*a renaissance education
for leaders of the 21st century*

REVELLE FRESHMAN GE REQUIREMENTS

QUARTER COURSES

5	Humanities <i>(five-course sequence) includes intensive instruction in university-level writing</i>
3	Calculus
5	Natural Science <i>includes Physics, Chemistry, and Biology; separate sequences available for science majors and for arts, humanities, and social science majors</i>
1	American Cultures
2	Social Science
1	Fine Arts
0-4	Foreign Language <i>can be met by proficiency exam (in certain languages) or coursework</i>
3	Area of Focus <i>three courses in one department, noncontiguous to your major</i>

revelle.ucsd.edu

REVELLE TRANSFER GE REQUIREMENTS

(to be completed after transfer)

Students who follow **IGETC** are welcome. You must meet some specific Revelle requirements, because IGETC does not fulfill all of the college's lower-division GE requirements.

In addition to meeting **TAG** or **UCSD Articulation Breadth Agreement** requirements, you must:

- pass UCSD language proficiency exam or complete 3rd semester/4th quarter at community college to complete lower-division requirements;
- take two semester courses noncontiguous to your major prior to transfer, or three quarter courses noncontiguous to major after transfer, to satisfy the Area of Focus requirement.

TAG or **IGETC** certification exempts students from the Humanities, American Cultures, Social Science, Fine Arts, and Area of Focus Requirements. Students must complete all other general education requirements on a course-by-course basis. This includes passing the UCSD language proficiency exam or completing the 3rd semester/4th quarter at a community college. Please see the Revelle College website for details on general education requirements.

UCSD Articulation Breadth Agreement

With careful planning, you can complete all GE requirements prior to transfer.

INVISIBLE CLASSROOM WALLS

GLOBAL SEMINARS

Spend five weeks of your summer abroad—two courses earn 8 academic credits. Taught in English by UC San Diego faculty members, some courses satisfy core GE requirements.

Choose from a dozen countries and subjects, including:

- *Climate Observations* – Nova Scotia, Canada
- *Mathematical and Engineering Concepts in Classical Architecture* – Rome, Italy
- *Paris in Literature, Film, & Art* – Paris, France
- *Public Health in Refugee Populations* – Amman, Jordan

More options for Athens, Budapest, Cádiz, Istanbul, Madrid, Oxford, Venice. Details on the Global Seminars website. icenter.ucsd.edu/pao/GSHome.html

DARE TO DREAM

Study Abroad Programs send more than 1,000 students each year to 35 countries in Africa, Europe, South America, and all across the Pacific Rim. pao.ucsd.edu

- 22% of UC San Diego undergraduates participate in a study-abroad experience by the time they graduate (the national average is 3%)
- \$500,000 in study-abroad scholarship funding is given annually

CHANGE YOUR VIEW

Change places with a student from an east-coast college for one quarter. Our exchange programs—with Dartmouth College in New Hampshire, and Morehouse College or Spelman College in Atlanta, Georgia—are open to all UC San Diego undergraduates, and offer a significantly different social and educational experience. muir.ucsd.edu/academics/acadoppor.shtml

MAKE IT HAPPEN

In the library, in the laboratory, or out in the field, research is an important component of most majors and minors, as well as honors programs and graduate-school preparation. You'll find dozens of opportunities throughout the campus. aep.ucsd.edu

MAKE A DIFFERENCE

Do you believe you can advance social-justice goals through your actions? Alternative Breaks @ UCSD are service and learning trips that educate, assist, and empower—and can impact hundreds of lives, including your own. International destinations in Costa Rica, Peru, Tanzania, and Ghana; U.S. locations focus on hurricane relief or work with Native Americans. solo.ucsd.edu [events]

UC San Diego is 18th in the country among large universities for placing alumni in Peace Corps service—more than 550 volunteers since 2002. career.ucsd.edu

MAXIMUM IMPACT

Choose to research abroad with Pacific Rim Undergraduate Experiences (PRIME) and you'll live and work all summer at host sites in Japan, Taiwan, China, or Australia. prime.ucsd.edu

ACADEMIC INTERNSHIPS

Take the opportunity to learn outside the classroom while earning academic credit. Explore career interests in local government, law, high-tech, and non-profit arenas; or try an internship in Sacramento, Washington DC, Sydney, or London. aip.ucsd.edu

GET INVOLVED

Take a break and discover the world of possibilities in every corner of your own campus:

- visit the *Farmer's Market* every Tuesday in Town Square
- unwind at *The Loft* and enjoy music and spoken-word performances
- get in touch with your inner artist at the *Crafts Center*
- *celebrate* at Winterfest, cultural exhibitions, and the Sun God Festival

Bond for life with “the Greeks”—21 fraternity and sorority connections offer cultural, pre-professional, community-service, and social groups to make friends.

Choose among 400+ student organizations (cultural, service, social, recreational, academic, political, religious) at the Center for Student Involvement.

Sherilyn

Eleanor Roosevelt College
major: **International Studies – Economics**

“I’d wanted to study abroad since I was 10 years old. When I was choosing a college, the program here is so well known, it was an easy choice. I went to France for one quarter and took classes in Gothic architecture, theatre history, geography, music theory, and history of cinema. And when I got back, I created my own minor, called French Studies. It’s amazing!”

Student organizations are at the heart of social, cultural, and political issues relevant to our campus community and the larger world view.

Black Student Union and **Movimiento Estudiantil Chicana y Chicano de Aztlán (M.E.Ch.A.)** have both been active on campus for 35 years.

Muslim Students Association, Asian and Pacific Islander Student Alliance, UCSD Chicano/Latino Concilio, National Society of Black Engineers, Chicano/Latinos for Community Medicine—just a few of the ways to get together, get involved, and make an impact.

Annual celebrations highlight our diverse campus population: Asian American and Pacific Islander Heritage Month, Black History Month, California Native American Days, César Chávez Month, and International Education Week, are among many events.

Explore our community centers by way of their websites—or better yet, stop by and meet people!

- One of the largest and most active **Lesbian Gay Bisexual Transgender (LGBT) Resource Centers** at any university in the country: **lgbt.ucsd.edu**
- Resources, programs, and classes on gender and family issues at the **Women's Center**, for women and men: **women.ucsd.edu**
- A great place to get involved is the **Cross-Cultural Center**—relax, work for social change, make friends, just be you. All students, staff, and faculty are welcome to visit or to find a home. **ccc.ucsd.edu**

"My parents' experiences as refugees and our involvement with Amnesty International really shaped who I am. That's why I'm a poli-sci major, because politics is in every realm of life. I want to know how we as citizens can use our power to influence government. I'm all about making a difference, and in order to do that, you have to know what's going on."

Sarah
Eleanor Roosevelt College
major: **Political Science**

"I'm really focused on finishing my degree. Serving 8 years in the U.S. military, you come away with the ability to do everything, or do nothing—I want to take what I learned in the Marine Corps about leadership and finding creative solutions, put it together with what I'm learning in my courses here, and apply it in grad school. Making an impact on educational systems is where I can really contribute."

Justice
Thurgood Marshall College
major: **Urban Studies & Planning**
minor: **Public Service**

SUSTAINABILITY 2.0

Everywhere you look on campus, UC San Diego's dedication to sustainability is evident. We focus our considerable interdisciplinary resources on the major issue of our time through Environment and Sustainability Initiatives. For the second year in a row, UC San Diego's commitment to campus forestry management and environmental stewardship has merited a *Tree Campus USA University* award. For the past four years, on-campus groups from the San Diego Supercomputer Center to the Rady School of Management to Scripps Institution of Oceanography have been working with the traditional disciplines of engineering, biology, health, social

sciences, and the humanities to positively impact the environment on campus, and beyond.

How big an impact? The far-reaching energy program will produce 29 million kilowatt hours per year—enough to power 4,500 homes. Our innovative programs are leading the way across the nation, including using native plants for drought-resistant landscaping and a collaboration with UC Davis to share solar energy.

Students, faculty, and staff are also fully engaged and find practical approaches to the reduce/reuse/recycle slogan. Colleges run energy-saving competitions. Housing & Dining hosts the Major Planet website with events, FAQs about what can and can't be recycled, and ways you can help.

hdh.ucsd.edu/majorplanet

- Student interns in the Green Campus Program won an award for helping reduce consumption of water, paper, and power.
- The Greenline shuttle is testing fuel blends of up to 99% soy biodiesel.
- A state-of-the-art cogeneration plant supplies nearly 85% of the electricity on campus.
- The GreenLight project has made a 40% reduction in the energy needed by scientific computing systems.
- New buildings are designed with sun shading and constructed with elements made from recycled plastic bags and recycled glass.
- Our solar energy program offsets 10,500 tons of carbon emissions—the equivalent of taking 1,500 cars off the road each year—and that's just the beginning.

With more than 200 seminars, workshops, and courses related to sustainability offered at UC San Diego each year, you can find one to fit your interests and impact our local community, influence nations, and extend your global reach for your own generation—and the next.

sustain.ucsd.edu

"You get a close-knit group of friends in your college. But your classes are all over the campus, so you're meeting people from everywhere. And the campus is enormous but it's got everything—it's beautiful. You know, everywhere you walk, it's just amazing. Literally anything that you can think of, there's probably something related going on somewhere on campus. And you could find a way to get involved with it."

Joe
Earl Warren College
major: **Molecular Biology**

ATHLETICS AND RECREATION

On-campus facilities include RIMAC Arena, our state-of-the-art recreational and concert complex, with two gymnasiums, track and field complex, weight room, racquetball courts, playing fields, a wellness center, and studios for classes. All across campus you'll find courts for playing basketball, sand volleyball, or tennis, plus swimming pools; the Main Gym near the center of campus has more courts and weight rooms.

Sixty percent of students are into recreation—no matter the level of expertise—from relaxing classes to competitive club sports to just-for-fun intramural games. Water skiing, equestrian sports, hip-hop dancing, and indoor rock climbing are just a few of the options.

San Diego's climate invites you to explore outback adventures and water sports all year—with the beach only a few blocks from campus and the mountains just a short drive away.

Students from all six colleges get together as UC San Diego shows its spirit, supporting our teams of student-athletes. We offer an extensive competitive intercollegiate athletics program at the NCAA Division II level, sponsoring 23 sports for men and women in:

Basketball
Crew
Cross Country
Fencing

Soccer
Swimming & Diving
Tennis
Track & Field

Volleyball
Water Polo
Softball (W)
Baseball & Golf (M)

UCSD Triton teams have won

"I did track the first two years and soccer the whole time. I liked that I got to know people all over campus through my team. I also got to meet people who weren't on my soccer team. It was a good balance, finding a lot of athletes who are bioengineers or studying all sorts of things. You have to prioritize and really keep focused and be able to multitask—that's the biggest lesson that athletics is teaching me."

UCSDTRITONS.COM

EXPLORE

Location! A picture-perfect Mediterranean-style climate and a short stroll to the beach make the UC San Diego campus one of the most spectacular in the country.

Location! The campus is within walking and biking distance of La Jolla Cove and Black's Beach—great spots for surfing, snorkeling, or even studying. Nearby is downtown La Jolla, where you can indulge in fine dining, theatre, comedy clubs, music, and the Museum of Contemporary Art. The communities of Del Mar and Solana Beach with art galleries and fun places to explore are just north of campus, a short train ride away.

Location! You're only 12 miles from the heart of San Diego—California's second-largest city—so there's always something to do in our corner of the world. You'll find marathons to Mardi Gras to museums... and sports, theatre, concerts, and dance clubs. High-adrenaline activities balance the relaxed atmosphere from the ocean to the desert, from the international border to the mountains.

Picture yourself here at UC San Diego on a student-led walking tour.

Monday through Saturday at 11:00AM.

An information session at the Student Services Center follows the tour, for prospective students and families.

Explore more by spending the day on campus.

HOUSING, DINING, WORKING, SUPPORT

MOVING IN

When you live on campus, you're part of a small and diverse neighborhood of new friends and study partners—92% of freshmen live on campus, and fall freshmen who meet deadline requirements are guaranteed two years of housing. Transfer students have housing at The Village at Torrey Pines—brand new!

Living off-campus, you still have a home in your college, with social events, commuter lounges, and advising.

Housing Services

Each bedroom or suite has computer connections, wiring for telephones, and cable TV with HBO. Find floor plans, what to bring, dates, and deadlines.

hdh.ucsd.edu/housing

Kamini

Thurgood Marshall College
major: **Psychology**

"As an undeclared major, I took this workshop called Got Major? What I learned from it was that a major doesn't necessarily lead to a job. A lot of the time it's what kind of work experience you get in college, because that can help lead you to your eventual career. So I realized I wanted to work with people, and with psych there are so many intriguing options."

Dining Services

Our dining halls and markets offer cage-free eggs, fair-trade coffee, tea and sugar, organic food, and locally grown fruits and vegetables, as well as kosher and vegetarian options. There are also non-resident dining plans, and special theme dinners during the year.

hdh.ucsd.edu/diningservices

MOVING OUT

Commuter Student Services gives you rental listings, an online forum for roommate matches, work-exchange situations, advice on tenant rights—plus commuting, parking, and rideshare information.

offcampushousing.ucsd.edu

Need a job to help pay for college or to gain work experience?

The Career Services Center has hundreds of listings for part-time student jobs, internships, and work-study opportunities.

MOVING ON

From self-assessments to job fairs, career panels to graduate school information, the Career Services Center helps students prepare for success after graduation. Use the Center's job listings as a resource for networking, résumé writing, and interviewing.

career.ucsd.edu

TRANSFER STUDENT SERVICES

Support systems just for transfer students—including those who are parents, veterans, and international students. Study-abroad programs, academic internships, research opportunities, and assistance from other support services are available to all students, including transfer students.

prospective.ucsd.edu/go/transfer

ACTA

(All-Campus Transfer
Association)

ON-CAMPUS HOUSING

The Village at Torrey Pines is open! Apartments, dining, a satellite bookstore and coffee shop, conference facilities, laundry... and the campus shuttle stops right out front. hdh.ucsd.edu/thevillage has virtual tours.

TRANSFER AND COMMUTER STUDENT SERVICES

Available through each of the six colleges. Check your college's website to learn more:

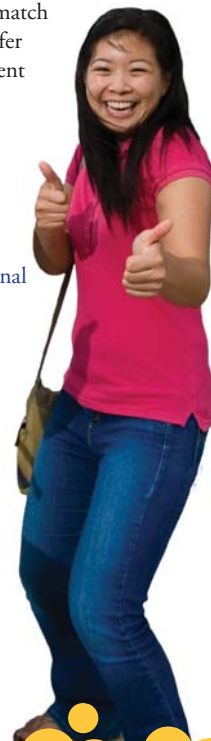

- invitations to socialize and make new friends
- relaxing/studying places—Commuter Lounges are in each college and everywhere throughout the Student Centers
- leadership opportunities within your college
- mentor programs match up incoming transfer students with current transfers—you're not alone!

OASIS

(Office of Academic
Support and Instructional
Services)

Specially trained tutors and peer mentors provide students with academic support in foreign languages, English, math, and science.

oasis.ucsd.edu

OFFICE FOR STUDENTS WITH DISABILITIES

Services, resources, and advocates provide assistance for your special needs. osd.ucsd.edu

SAFETY AND EMERGENCY PREPAREDNESS

On a campus the size of a small town, you would expect to find comprehensive emergency preparedness plans in place—UC San Diego has a reverse 911-phone system, emergency blue-light call boxes on campus, an emergency text messaging system for all members of the campus community, and its own Police Department. blink.ucsd.edu/go/emergencyprep

COSTS AND FINANCIAL AID

The mission of the Financial Aid Office is to ensure all admitted students can attend, regardless of financial circumstances. Approximately half the students at UC San Diego are awarded some form of financial aid. Detailed explanations about the types of financial aid available online. fao.ucsd.edu

Scholarships

The UC application is also your application for scholarship awards

Grants

Federal, state, & university programs; based on financial need

Loans

Subsidized (based on financial need) and unsubsidized

Work-Study

Jobs for those with financial need

Get the FAFSA at your school in December or at fafsa.ed.gov and submit it between January 2 and March 2, 2010 to be considered for UC San Diego awards.

ESTIMATED EXPENSES FOR UNDERGRADUATE RESIDENTS OF CALIFORNIA

	Living with parents	University Housing	Off Campus
Resident fees	\$ 8,816	\$ 8,816	\$ 8,816
Room & board	4,277	11,093	9,971
Books & supplies	1,560	1,560	1,560
Transportation	1,946	1,089	2,082
Personal expenses	1,893	1,526	1,655
Health insurance	846	846	846
TOTAL:	\$ 19,338	\$ 24,930	\$ 24,930

Mandatory Orientation fees

\$140 (entering freshmen) \$55 (entering transfers)

Non-California residents add \$22,021 tuition and \$648 educational fee to basic budget total above.

*Other than resident fees and out-of-state tuition, costs are averages that will vary with circumstances.

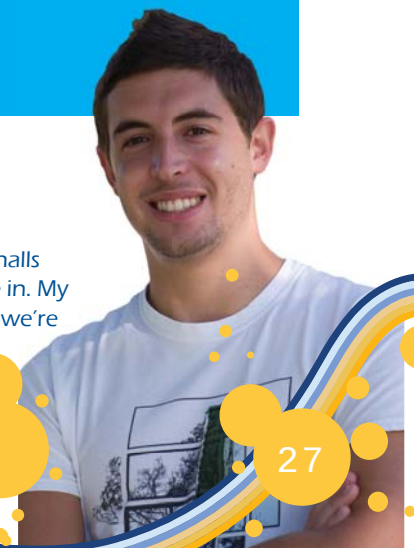

Important: All estimated budgets are subject to change.

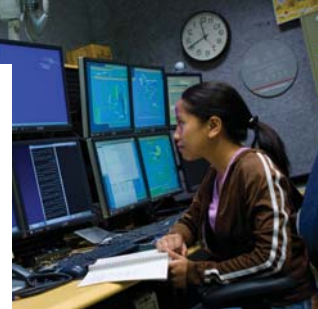

Travis

Revelle College

major: **International Studies – Economics**

“I really felt that the suite system in the res halls made more of an instant community to live in. My roommate and another of our suite mates, we’re all a little different – their majors are math and poli sci. We’re still best friends and still live together now, off campus.”

UC APPLICATION

universityofcalifornia.edu/apply

APPLICATION FILING PERIOD

November 1-30

MINIMUM ADMISSION REQUIREMENTS

UC “a-g” courses: Complete with at least a “C” in each course:

- History/Social Science – 2 years
- English – 4 years
- Mathematics – 3 years (4 recommended)
- Laboratory Science – 2 years (3 recommended)
- Language other than English – 2 years of same language (3 recommended)
- Visual & Performing Arts – 1 year
- College Preparatory Electives – 1 year

GPA

- Based on “a-g” courses in 10th & 11th grades
- California residents with 3.00 or above (nonresidents with 3.4 or above) must meet minimum scholarship requirement with correlating scores on the UC Eligibility Index.

EXAM REQUIREMENTS

- ACT Assessment plus Writing (scores must be from same sitting); OR
- SAT Reasoning Test with critical reading, math, and writing; AND
- 2 SAT Subject Tests in 2 different areas: history/social science, literature, math (Level 2 only), science, or language other than English
- tests must be taken by the end of December of the senior year

SELECTION CRITERIA

Admission to UC San Diego is very competitive—you must exceed minimum requirements. All UC-eligible applicants receive a comprehensive review which considers a combination of academic, personal, and achievement factors, some of which are:

- uncapped weighted GPA (can include a maximum of 8 AP/IB, Honors, or UC-transferable courses)
- exam scores
- “a-g” courses beyond minimum
- educational environment, low family income, first-generation college attendance
- leadership, special talents/achievements/awards
- volunteer/community service
- education preparation programs
- special circumstances and/or personal challenges

Those with the highest level of achievement will be admitted in sufficient numbers to meet UC San Diego’s enrollment goals.

47,037 the number of applications for Fall 2009 admission – **38%** were admitted.

4.08 the mean grade point average for admitted freshmen

Exceptional students from across the United States and from around the world are encouraged to apply.

MINIMUM UC ELIGIBILITY REQUIREMENTS

1. Minimum 60 UC-transferable semester (90 quarter) units, completed by end of spring term prior to fall admission
2. Competitive GPA in UC-transferable courses and good academic standing
3. Meet UC eligibility by:
 - a) clearing all UC "a-g" subject requirements with high school and college courses, earning at least a "C"; OR
 - b) completing these UC-transferable college courses: **
 - 2 English composition
 - 1 mathematical concepts & quantitative reasoning; and
 - 4 from at least two of the following: arts & humanities, social & behavioral sciences, physical & biological sciences

*** 3 semester (4-5 quarter) units each, completed by end of spring term prior to fall admission*

UC APPLICATION

universityofcalifornia.edu/apply

APPLICATION FILING PERIOD

November 1-30

11,519 the number of applications for 2009-10 admission – 59% were admitted.

3.50 the mean grade point average for admitted transfer students

More than 90% of transfers are California community college students.

Exceptional students from across the United States and from around the world are encouraged to apply.

CALIFORNIA COMMUNITY COLLEGE (CCC) APPLICANTS

- enrolled at one or more CCCs for at least 2 regular terms *
 - last college before UC San Diego admission is a CCC *
 - completed at least 30 semester (45 quarter) UC-transferable units
 - articulation agreements with California community colleges at assist.org
- * excludes summer sessions

COMMUNITY COLLEGE TRANSFER PREPARATION PROGRAMS

Details on the Admissions webpages:

- Transfer Admission Guarantee (TAG)
- UniversityLink
- Intersegmental General Education Transfer Curriculum (IGETC)

To ensure timely graduation, completion of lower-division GEs as well as major-preparation courses before transferring is strongly recommended.

Christel

Sixth College

major: **Cognitive Science**

minor: **Psychology**

"I did the TAG program and even though I applied to other schools, UC San Diego was the one I wanted. I had no idea what it would be like coming to a bigger university and dealing with world-renowned professors, but it's different from my expectations. I found out so much more about my major when I started taking upper-division classes, and it opened up a lot of opportunities for my college career."

PLEASE RECYCLE

UC San Diego

Local Impact, National Influence, Global Reach

From Convocation in September 2010 to Commencement in June 2011, the focus will be on both the past and the future.

UC San Diego is celebrating 50 years with a whole year of signature events to honor and involve those on campus... in our community of San Diego... across the nation... and around the world.

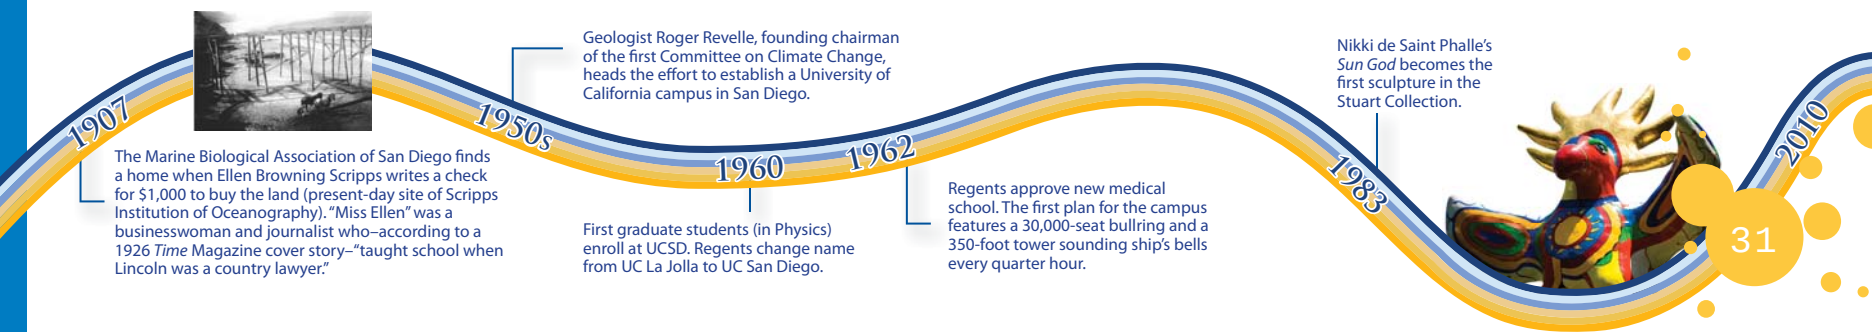

The dreams and hard work of students and faculty, administrative visionaries and families, alumni and staff members, have brought us from 1960 to 2010. And we're just getting started.

Explore our legacy and picture yourself as a part of our future. 50th.ucsd.edu

“No major American university has ever grown so remarkably both in quantity and quality at the same time, and in so short a time.”

— Clark Kerr

12th president of the University of California [written for the 25th Anniversary, 1985]

ADMISSIONS.UCSD.EDU
